

iRESPITRONICS

Advancing respiratory care *through technology*

ALLNEB

Where Boundless Innovation Meets the Symphony of Clear Breathing:
Flow Sensor Unleashes Unrivaled High-Tech Respiratory Solutions.

Navigating the Features

Advanced Respiratory Care

AIINEB empowers advanced and precise respiratory support for optimal breathing health.

Built In Filter when in use with the AIINEB

The built-in filter in AIINEB ensures clean airflow, optimizing medication delivery and enhancing respiratory therapy effectiveness.

Shorter Treatment Time

AIINEB offers rapid relief with shorter treatment times, ensuring swift and effective respiratory care. Embrace quicker results for your well-being.

Reduces Hospital Readmission

AIINEB reduces hospital readmissions, improving health outcomes and promoting well-being.

Attaches to AIINEB

Unlock the Ultimate Respiratory Therapy with AIINEB and AIINEP. Experience maximized medication delivery and airway clearance, ensuring unparalleled well-being.

Breath-Actuated

AIINEB and AIINEP synergies to automatically provide therapeutic support **ONLY** when inhaling, ensuring targeted and effective respiratory assistance.

Creates Safer Environments

AIINEB's breath-actuated precision and AIINEP's filter compatibility create a safer and efficient respiratory environment.

Optimal Aerosol Delivery

AIINEB's advanced technology creates tiny aerosol particles for optimal lung absorption, ensuring effective respiratory therapy.

Increase Cost Savings

Experience budget-friendly respiratory care without compromising on health outcomes.

Hassle-Free Cleaning

AIINEB features a user-friendly cleaning procedure, allowing for effortless maintenance and ensuring optimal hygiene for long-lasting respiratory wellness.

Navigating the Functionality

Medical Reservoir

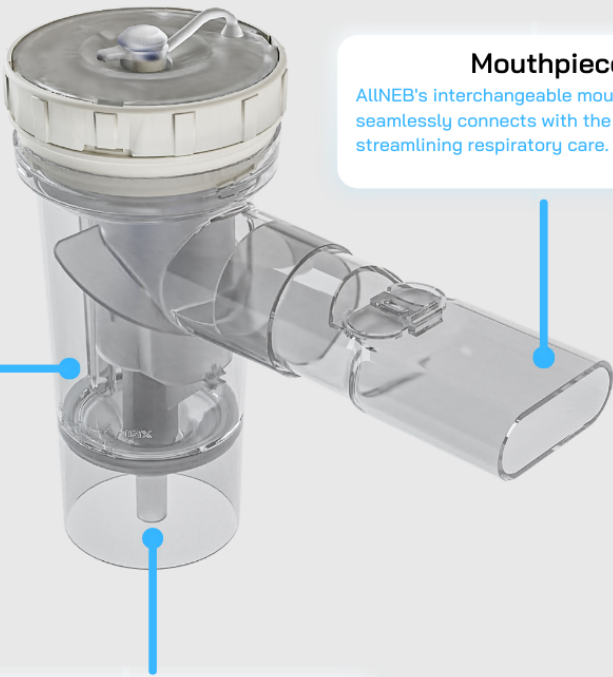

The medication is filled into the reservoir.
The reservoir's capacity is 6 mL.

Mouthpiece

AlINEB's interchangeable mouthpiece
seamlessly connects with the AllPEP device,
streamlining respiratory care.

Connection to Compressor

All-PEP's ergonomic mouthpiece seamlessly
conforms to the user's mouth, providing a
comfortable and secure interface for optimal
airflow control.

AllNEB: Enhanced with Integrated with the AllPEP for the Ultimate Respiratory Powerhouse

Compatible with:

Advanced Respiratory Care

AllPEP empowers advanced and precise respiratory support for optimal breathing health.

Built In Filter

AllPEP's integrated filter ensures pure and contaminant-free results, enhancing performance and delivering exceptional quality with every use.

The Dynamic Duo: AllPEP & AllNEB

Experience maximized medication delivery and airway clearance, ensuring unparalleled treatment.

Oscillation Superiority

AllPEP's advanced oscillation technology swiftly and intelligently clears mucus, ensuring optimal airway hygiene and unparalleled respiratory comfort.
